The benefits of LPG Analytics:

- Production and consumption by country from 2010 to 2040
 - Production broken down into refinery supply and from gas processing plants
 - Consumption by sector: residential, industrial, commercial, autogas, agricultural, refinery fuel, and petrochemicals
- Imports and exports by country
- All data is further broken down into propane and butane
- Forecasts for key prices out to 2040 including ARA large cargo, cfr Japan, Mt. Belvieu as well as regional crude and naphtha prices
- Updates on latest developments:
 - Project tracker for key infrastructure projects including US export terminals and PDH plants
 - Impact of US-China tariffs
 - Covid-19
 - Effect of large changes to the oil price
